- Rwy 24:** Climb hdg **239°** to **4000**. Expect radar vectors to assigned route.
- Note:** Noise abatement procedures in effect.

Communication Failure

- On recognition of failure 5 minutes or less after take-off and in IFR weather conditions proceed as follows:
1. Select transponder code 7600.
 2. Proceed directly on course.
 3. Do not climb above last assigned altitude for 5 minutes after recognition of failure.
 4. Climb to flight planned altitude.
